EXPERIENCE

Shopify Developer Intern

July 2024 – Sept 2024

Precious Models [[Website](#)]

Remote

- Delivered a premium e-commerce site for a leading digital jewelry design startup by customizing Shopify themes using **Liquid**, **CSS**, and **JavaScript**
- Architected a custom wishlist feature, eliminating reliance on third-party apps and reducing platform costs
- Engineered **3D CAD** model integration on product pages using Three.js, enabling users to inspect fine jewelry details in real-time.
- Built custom **Shopify sections** including a mobile quick-access bar and product highlights, enhancing navigation, mobile engagement, and user retention

PROJECTS

TechMaven – Affiliate E-Commerce Platform [[GitHub](#)] [[Website](#)]

Feb 2025

- Engineered a full-stack platform to publish product reviews and earn affiliate based revenue generation
- Integrated optimized image upload system using **Multer** and **Cloudinary** for efficient media handling
- Implemented Featured Products and Similar Recommendations to improve discoverability and user engagement.
- Designed a modern and minimalist UI for improved UX and seamless browsing experience
- Tech Stack: **ReactJS**, **Node.js**, **Express**, **MongoDB**, **Cloudinary**, **Multer**, **Tailwind CSS**

CheffClaude – AI-Powered Recipe Generator [[GitHub](#)]

Jan 2025

- Built a web app that generates creative recipes based on user-input ingredients using HuggingFace AI models
- Leveraged **HuggingFace Mistral API** to generate step-by-step cooking instructions.
- Assembled an intuitive React.js frontend for smooth user experience and real-time feedback.
- Tech Stack: **ReactJS**, **HuggingFace API**, **Tailwind CSS**

Utube – Full-Stack Video Sharing Platform (Ongoing) [[GitHub](#)]

March 2025

- Designed backend architecture with Node.js, Express and MongoDB to support user **auth** and **video management**
- Built secure file upload system using Multer and Cloudinary to store user-submitted videos efficiently
- Applied **Bcrypt** hashing for secure password storage and verification
- Deployed **JWT**-based access and refresh token system for secure authentication and session management
- Tech Stack: **Node.js**, **Express.js**, **MongoDB**, **Multer**, **Cloudinary**, **JWT**, **Bcrypt**

EDUCATION

Veermata Jijabai Technological Institute

Mumbai

Bachelor of Technology in Textile Technology

Nov. 2022 – May 2026
